Praxis I Preparation

Are you a prospective teacher who needs to pass the Praxis I Exam? Have you already attempted the Praxis I and not been successful? If you answered yes to either of these questions, then this course is for you!

This course will get you familiar with the different types of questions that appear on the Reading and Writing tests. You'll master the many areas of math that you'll be tested on: number operations, negative numbers, exponents, square roots, order of operations, decimals, fractions, percentages, algebra, geometry, data analysis, graphs, probability, and measurements. To prepare for the essay, we'll discuss what constitutes a high scoring one. We'll also go through the process of writing an essay in the amount of time allotted.

Learn useful test-taking strategies and get plenty of practice questions that are similar to what you'll find on the exam. You'll also have the opportunity to take a full-length practice test in each subject area. Using clear explanations, numerous examples, and graphics and animation, this course will not only prepare you for the Praxis I, but do so in a way that's fun and interesting.

All instructor-facilitated online courses run for six weeks (with a 10-day grace period at the end). Courses are project-oriented and include lessons, quizzes, hands-on assignments, discussion areas, supplementary links, and more. You can complete any of these courses entirely from your home or office and at any time of the day or night.

SAT/ACT Preparation – Part 1

This course will prepare you to take the verbal question types on both the ACT and the SAT. SAT/ACT Preparation Part I is designed to prepare you for the reading, English, and science sections of the ACT and the critical reading and writing sections of the SAT. You'll refresh your knowledge of verbal topics and learn techniques that can help you relieve test-taking anxiety.

SAT/ACT Preparation – Part 2

This course will prepare FOR the math questions on both the ACT and the SAT. You'll refresh your knowledge of math subjects and learn techniques to help you move through the tests more quickly. We'll review arithmetic, algebra, geometry, trigonometry, and statistics as well as the Student Produced Response questions on the SAT. We'll practice techniques and approaches using similar exam questions and fully explain and interpret the correct and incorrect answers.

Get started today!

1. Visit our Online Instruction Center:
2. Click the **Courses** link, choose the department and course title you are interested in and select the **Enroll Now** button. Follow the instructions to enroll and pay for your course. Here you will choose a username and password that will grant you access to the Classroom.
3. When your course starts, return to our Online Instruction Center and click the **Classroom** link. To begin your studies, simply log in with the username and password you selected during enrollment.

Start Dates:

New course sessions begin monthly. Please visit our Online Instruction Center to see exact start dates.
