

CompTIA™ Security+ Certification Training

Our Program

This program teaches your local workforce the skills needed to begin a career as a security professional and prepares them to take the CompTIA™ Security+ exam.

Students will become proficient in basic security concepts such as attacks and mitigation, security applications, risk assessment, disaster recovery and incident reporting, and vulnerability assessment. They'll also learn the newest security protocols related to cloud computing, incident response, and the susceptibility of network-enabled devices and mobile devices to wireless networks.

This program helps your workforce build practical skills with hands-on labs that can be completed in remote and lab environments.

Certifying Exam: CompTIA™ Security+ Exam

Professional Credential: CompTIA™ Security+ Certified
