

Veterinary Assistant

Includes:

BOOKS AND MATERIALS

About the Program

If you have a love for animals and want to break into the Veterinary field, this online training program will help you prepare for a position as a Veterinary Assistant. You will learn every aspect of veterinary assisting, including anatomy and physiology, laboratory sample collection, assisting in dentistry and surgery, even pet care and nutrition.

This program is designed for students who want to work in a veterinary hospital, or take their animal caretaking job to the next level.
