

# Cisco CCNA Certification Training

## Our Program

Provides local students with the knowledge essential for installing, configuring, operating and securing a small enterprise branch network.

Upon completion, students are prepared to take 100-101 ICND1 to earn the CCENT, as well as 200-101 ICND2. Passing both exams awards students the Cisco CCNA Certification.

Should a student opt to take one comprehensive exam, they will also be eligible to take the 200-120 exam. A passing score on this single exam will also result in a Cisco CCNA Certification.

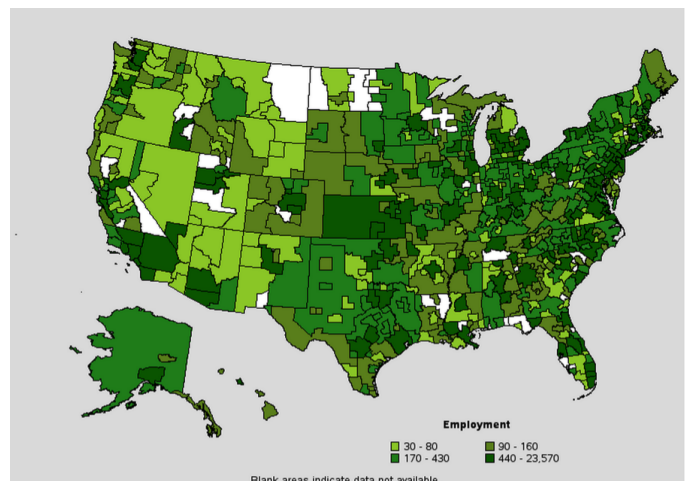

**Certifying Exam:** 100-101 ICND1 and 200-101 ICND2 or 200-120 CCNA Exam

**Professional Credential:** Cisco CCNA Certification

## Graduate Stats

Average of 441 students per year

- 18-month completion rate: **55%**
- Average completion grade: **97%**
