- Expert Instructor
- 24-Hour Access
- Online Discussion Areas
- 6 Weeks of Instruction

Start Dates:

New course sessions begin monthly. Please visit our Online Instruction Center to see exact start dates for the courses that interest you.

Courses Start as Low as:**Get started today!**

1. Visit our Online Instruction Center:
2. Click the **Courses** link, choose the department and course title you are interested in and select the **Enroll Now** button. Follow the instructions to enroll and pay for your course. Here you will choose a username and password that will grant you access to the Classroom.
3. When your course starts, return to our Online Instruction Center and click the **Classroom** link. To begin your studies, simply log in with the username and password you selected during enrollment.

Requirements:

All courses require Internet access, e-mail, and the Microsoft Internet Explorer or Mozilla Firefox Web browser. Some courses may have additional requirements. Please visit our Online Instruction Center for more information.

All instructor-led online courses run for six weeks (with a 10-day grace period at the end). Courses are project-oriented and include lessons, quizzes, hands-on assignments, discussion areas, supplementary links, and more. You can complete any of these courses entirely from your home or office and at any time of the day or night.

GED Preparation

If you want to obtain employment or advance in your career, you will need to demonstrate to your employer that you have at least a high school education. If you never finished high school, the GED® test will serve as proof that you have acquired the equivalent of a high school education on your own.

This course will help you develop the additional reading and thinking skills you'll need to succeed in all five GED® test areas: Writing Skills, Social Studies, Science, Literature, and Math. After completion of this course, you should be well-equipped to take—and pass—the GED® test!

Prepare for the GED Math Test

Master the skills required to successfully pass Test 5 in the GED® test series. You'll start off with a review of math basics and begin building the foundation you'll need to solve the types of math problems commonly found on the test. In the process, you'll develop hands-on experience with fractions, decimals, percents, proportions, statistics, algebra, and geometry.

Then, you'll get a chance to apply your knowledge by practicing with the same kind of questions you may encounter on the GED® test. By the time you finish this course, you'll be much more comfortable with your math skills, and you'll know how, when, and why to use each math concept you learn.

Prepare for the GED Language Arts, Writing Test

This course will help you prepare to take both parts of this two-part exam.

You'll learn the basics of usage and mechanics of the English language and then find out how to apply that knowledge in order to edit passages for the multiple choice portion of the test. After covering the basics, you will then focus on the three kinds of questions that will be encountered on the multiple choice test: correction, revision and construction shift.

You'll then learn a step-by-step approach to writing that will give you the confidence you need to craft a winning essay! You'll understand all the elements of the essay, including how the essay is scored, and what types of topics you're likely to encounter.

Lastly, you will apply your new editing skills and knowledge of usage and mechanics of the English language to proofread and evaluate your own essay.
