■ Praxis Core Preparation

This course will get you familiar with the different types of questions that appear on the Reading and Writing tests. You'll master the many areas of math that you'll be tested on: number operations, negative numbers, exponents, square roots, order of operations, decimals, fractions, percentages, algebra, geometry, data analysis, graphs, probability, and measurements. To prepare for the essay, we'll discuss what constitutes a high scoring one. We'll also go through the process of writing an essay in the amount of time allotted.

Learn useful test-taking strategies and get plenty of practice questions that are similar to what you'll find on the exam. You'll also have the opportunity to take a full-length practice test in each subject area. Using clear explanations, numerous examples, and graphics and animation, this course will not only prepare you for the Praxis Core, but do so in a way that's fun and interesting.

■ SAT/ACT Preparation – Part 1

This course will prepare you to take the verbal question types on both the ACT and the SAT. SAT/ACT Preparation Part I is designed to prepare you for the reading, English, and science sections of the ACT and the critical reading and writing sections of the SAT. You'll refresh your knowledge of verbal topics and learn techniques that can help you relieve test-taking anxiety.

■ SAT/ACT Preparation – Part 2

This course will prepare FOR the math questions on both the ACT and the SAT. You'll refresh your knowledge of math subjects and learn techniques to help you move through the tests more quickly. We'll review arithmetic, algebra, geometry, trigonometry, and statistics as well as the Student Produced Response questions on the SAT. We'll practice techniques and approaches using similar exam questions and fully explain and interpret the correct and incorrect answers.
