

STUDENT SUCCESS STORY

CAREER BUILDING COURSES TO FIT ANY SCHEDULE

TOOLS FOR FUTURE CAREER SUCCESS

BRANDIE C. is an undergraduate student at the University of Texas, El Paso and works two jobs. She wanted to build her skill set and get a better understanding of her field in rehabilitation sciences, but knew she would need to be able to take any courses on her own time and pace to fit into her busy schedule.

ed2go's online self-paced classes have given Brandie a clear picture of what to expect in rehabilitation sciences. They've also boosted her confidence and given her a better understanding of people and tools to manage any situation at work. These career-building classes enabled her to take seven ed2go courses through the Ysleta Del Sur Pueblo Native Pathways program!

“ed2go is a fun and great experience that helps you learn and gain a better understanding of what your future line of work is going to look like!”

The demand for Physical Therapy Aids and Physical Therapists is **projected to rise 28.5% in the next 10 years**

CHALLENGE

Fitting in courses while balancing an undergrad program and two jobs.

SOLUTION

Online, self-paced ed2go courses

- **Certificate in Complementary and Integrative Health**
- **Become a Physical Therapy Aide**
- **Introduction to Microsoft Word 2019/Office365**
- **Start Your Own Business**
