

HVAC/R TECHNICIAN TRAINING for English Language Learners

Together with EnGen, a career-focused virtual English language learning platform, we've created English on-ramps for Spanish speakers to the Heating Ventilation and Air Conditioning (HVAC) industry. Unlike traditional ESL programs, the English instruction is job-specific and based on the student's real-world needs.

HOW IT WORKS

- Online, self-paced training with 18 months to complete
- Career-aligned English instruction tailored to a student's proficiency level
- Proficiency Assessment offered every 60 days to track improvement
- Progress to the HVAC/R Technician Advanced Career Training course upon scoring High Intermediate
- 6-month access to the entire EnGen platform, including live, online classes

KEY BENEFITS

- **Easy to Access:** The EnGen app works on a phone, tablet, or computer with the option to toggle between Spanish and English.
- **Personalized:** Students build English skills relevant to their life, proficiency level, and career goals.
- **Career Pathway:** Industry-aligned English instruction accelerates students' readiness for workforce training programs and industry certification.
- **Industry Credentials:** Course includes voucher package for the HVAC Excellence Employment Ready Certificate exam that includes 1 Employment Ready Certificate for Electrical, 1 Employment Ready Certificate for Air Conditioning, and 1 EPA 608 Voucher.
