

STUDENT SUCCESS STORY

COURSES FOR THE NEXT STEP IN YOUR CAREER

STRUCTURE AND REPETITION ENABLES RETENTION

SARAH L. During the pandemic, extra time at home gave Sarah more flexibility to take ed2go courses from the safety of her own home, like getting a refresher on early childhood education through the Child Development Associate course.

Once Sarah learned that the Maine Department of Labor and **Central Maine Community College** would cover her course tuition, she jumped at the opportunity. The ed2go lesson structure helped Sarah retain a vast amount of knowledge through structure and repetition. As a result, she found the rhythm of online classes easy to fall into. In addition, the prescreening tests helped show what she knows to get a more accurate picture and where she needed to review, which helped raise her final exam average to a 95%!

“I am glad I had the opportunity to study for my Child Development Associate certification through the online ed2go course and would recommend it to any prospective student.”

CHALLENGE

Sarah wanted to refresh her early childhood education knowledge after being out of the field for several years.

SOLUTION

Online, self-paced ed2go course
• **Child Development Associate**

RESULTS

Practical and theoretical knowledge she can use in her current role as a substitute teacher, or to become a more permanent one in the future.
