FROM ASPIRATION TO ACTION

NONPROFIT GOALS ACHIEVED THROUGH ONLINE TRAINING

TAISSA L. enrolled in the Nonprofit Manager Program through Truckee Meadows Community College (TMCC). She envisioned establishing her own nonprofit focused on neuroscience. Taissa's path was not without its challenges, but her determination and dedication led her to overcome obstacles and achieve her goals.

Balancing her full-time graduate studies at the University of Nevada, Reno, with four jobs, Taissa faced a significant hurdle in attending in-person classes. The demanding schedule made it difficult to commit to traditional learning formats. However, Taissa's unwavering commitment to her education led her to discover the online **Nonprofit Manager Program**, offering her a flexible, online solution to pursue her passion.

Through the course, Taissa gained a deeper understanding of the financial realities of running a nonprofit. This realization prompted her to seek practical experience by joining an established nonprofit in her community while building her own. By applying her newfound knowledge to real-world scenarios, Taissa was able to contribute meaningfully to the organization's mission while building her network and gaining valuable insights for her own future endeavors.

“My experience with the ed2go online course was incredibly positive, thanks to its user-friendly portal that made navigation a breeze. The flexibility to work on my own time allowed me to balance my studies with other commitments, enhancing my overall learning experience.”
