

ACE CREDIT RECOMMENDED COURSES

RESPECTED, RIGOROUS, AND HIGH-QUALITY COURSES

ed2go is proud to announce our new American Council on Education (ACE) credit recommendations for 37 Advanced Career Training (ACT) courses. These recommendations demonstrate our commitment to high-quality courses that can perform at any level and prepare students for in-demand careers.

ACE Learning Evaluations help adults gain academic credit for courses and examinations taken outside traditional degree programs. For over 30 years, colleges and universities have trusted ACE to provide reliable course equivalency information to facilitate their decisions to award academic credit.

ACE credit recommendations are a milestone in recognizing ed2go courses as respected, rigorous, and high-quality, as they met exacting standards from the ACE organization. This distinction from ACE improves the student experience as it translates to greater acceptance of their earned certifications, facilitating smoother transitions and more flexible learning options.

ACE REVIEW METHODOLOGY

- Approximately 20 ACE-hired faculty from 2-and-4-year colleges and universities reviewed ed2go content
- Courses were reviewed in four key categories: Content, Course Design, Course Delivery, and Assessment
- ed2go received high commendations surrounding our clear-robust learning objectives, inclusion of multiple exercises to cater to diverse learning styles, and accessible, user-friendly Learning Management System

"ACE credit recommendations equip learners who have completed innovative training through ed2go with the credentials they need to thrive in today's workforce. This underscores ACE's dedication to advancing social and economic mobility for underserved communities."

OUR COMMITMENT TO HIGH-QUALITY LEARNING DESIGN

ed2go is committed to high-quality design in all our courses through the following framework and standard course features:

INTENTIONALITY – An effective and challenging learning experience where students are motivated to accomplish increasingly complex goals.

INCLUSIVITY – Considers the full range of human diversity and difference. A flexible learning environment that accommodates individual learning differences and creates a sense of belonging.

AUTHENTICITY – Tasks in a real-world wrapper, applying and demonstrating their learning outside of the classroom.

PERSONALIZATION – Meeting all student needs for competency, autonomy, and belonging to create intrinsic motivation.
