

“The course gave me a strong baseline in the trades field before I ever stepped onto a job site.”

Finding Direction Through the Trades:
From Stuck to Successful

MY JOURNEY AT A GLANCE

BEFORE

I was in college, but I felt like I wasn't getting anywhere with the path I was on. I knew I needed something different.

THE COURSE

I enrolled in the Residential Electrician course through UH where flexible learning helped me build trade knowledge.

AFTER

Today, I'm working full-time as a Commercial Electrician Apprentice at East Texas Electric.

MY STORY

MY CHALLENGE: I felt stuck in traditional college classes and knew I needed a different path. The electrical trade stood out as a career with strong growth potential, so while I was preparing for my next chapter, I enrolled in the course to build my knowledge and confidence.

WHY ED2GO: I needed a program that could fit into my schedule while helping me build real-world knowledge. The course gave me the opportunity to learn at my own pace while developing an understanding of electrical principles.

WHAT CHANGED: The course helped me move from uncertainty to confidence. I loved the videos and visual tools that allowed me to picture what I was doing and what it could be like in the field. It helped give me a baseline in the field, so when I interviewed, I had an advantage against other applicants.

MY OUTCOME: The benefits of the course have been tremendous. Not only have 1,800 hours been knocked off my journeyman exam, but it has also allowed me to improve faster.
